HUNTERS

Your hunting experience starts at the break of dawn. Fuel up with a cup of coffee and rusks or perhaps a more substantial selection of breakfast cereals, yogurts and juice before setting out on your safari.

The morning hunt is done until approximately 11h00 at which time we return to the lodge for Brunch. After Brunch, relax at the lodge, take a dip in the pool or just enjoy the beautiful surroundings. The hunt resumes approximately 14h30 and will continue until sunset.

Our hunting methods consist of either Walk and Stalk or hunting from Hides or special vantage points from which we ambush animals, depending on your preference. You can also opt to hunt from one of our well-equipped vehicles should you have any medical condition or are limited by not being able to walk long distances. Your Professional Hunter will discuss these options with you upon arrival.
